Planning Officers

The City of Medicine Hat, Planning, Building and Development Services has exciting opportunities for Planning Officers who take pride in employing their unique skills and range of experience as Development Planners, in both permanent and term positions. As Development Planners, these individuals will be challenged to provide the highest level of customer service to the public and the development industry.

The successful candidates will exercise discretion and consistent judgement in the application of their services, and will perform a wide range of professional planning work, depending on their level of experience. This work will be largely related to land development, including reviewing subdivision and development proposals, as well as interpreting, applying and monitoring existing planning policy and development regulations and guidelines. The successful candidate must bring a reputation for superior customer service and be proficient in MS Office applications as well as have a working knowledge of GIS and AutoCad software.

Our ideal candidate:

- Will have a university degree in planning or a related field
- Will be eligible for membership in the Canadian Institute of Planners
- Will have a demonstrated ability to organize and manage tasks and projects with competing priorities
- Experience directly related to Development Planning will be considered an asset
- An equivalent combination of management approved training and experience may be considered.

Competition deadline is Friday, May 30, 2008.
